

# AKI BARBER

Industrial Designer

## OBJECTIVE

---

I am a recent graduate seeking a fulltime position as an industrial designer. I hope to utilize my creative abilities and leadership qualities for creative problem solving. I am interested in medical, soft goods, and home-good design.

## EXPERIENCE

---

### RCd | Junior Industrial Designer

Los Angeles, CA | Summer 2018 - Present

*Working with an intimate team to bring client visions to market. Full product development including ideation, sketching, and rapid prototyping. Working with domestic and overseas vendors and manufacturers. Products vary from medical soft-goods to consumer electronics and accessories.*

### Kohler Co. | Industrial Design Intern

Sheboygan, WI | Summer 2017

*Developing new product lines for the kitchen department. Demographic and User experience research. Creation of internal use graphic material.*

### Dominick Guillemot Studio | Assistant

Malibu, CA | Summer 2015/ 2016

*Assisting with lighting and set preparations as well as take-down during commercial and catalogue photo shoots.*

### iD Tech | Lead Instructor at ID Tech / ID Mini

Irvine, CA / La Jolla, CA | Summer 2015, 2016

*Teaching and working with children ages 5 - 18. Creating a syllabus to teach computer software, 3D modeling and animation and game design. Instructor management.*

### RISD Industrial Design | Wood Shop Monitor

Providence RI | 2016- 2018

*Ensuring woodshop safety and cleanliness. In-charge of department wide sewing. Demonstrating use of industrial sewing machines, patterning, and leather work. Upkeeping machine maintenance and general shop care.*
